DRY CLEANERS

JEEVES[®]

LONDON'S FINEST DRY CLEANERS
SINCE 1969

Jeeves Clothes Care Service is second to none. It is all encompassing, offering personal attention to the smallest detail and combining the finest traditions of a clothes care and cleaning service with the most modern technology and facilities.

Founded by Mr. Sidney Jacobs in 1969, Jeeves's first Valet Shop opened in Pont Street off Belgravia Square, a most prestigious area in London close to Buckingham Palace.

He wished to provide a service reminiscent of old-time values, a personal service, superior to all other launderers and dry-cleaners anywhere.

Jeeves of Belgravia's reputation for unparalleled clothes care service has grown rapidly and today there are authorised franchisees in Europe, USA, Middle East and Asia.

ENTRY

THE JEEVES WAY IS FASTIDIOUSLY DIFFERENT

Clothes to be washed or dry-cleaned go through a seven-stage process.

First they are inspected for any stains and other imperfections. Laundered clothes are then washed in water ten times purer than the purest drinking water and 100 times more pure than the original well water.

This purification is ideal for clothes and helps maintain the garment's original pristine brightness. In Jakarta white cotton clothes will turn yellow with home washing because of the high iron content in the groundwater.

Designer brands are treated with kid gloves. The beautiful buttons and adornments on designer clothes are removed or individually protected. This eliminates all possibilities of damage during the cleaning process. To ensure articles are repositioned exactly photographs are taken before removal to ensure absolute precision on reapplication after washing or cleaning.

The garment is again inspected before being individually hand-pressed to the highest standards or to a client's specific requirements.

Jeeves offerd a full tailoring service short of actually cutting the cloth for a new garment.

We replace zips when needed, shorten, lengthen and taper trousers, let-in and let-out jacket and trouser linings.

It is this attention to the finer details that makes our service more expensive than other laundries and dry-cleaners. It is, however, a standard of service our clients feel is worth every penny, as they wish to appear immaculately dressed.

Some clients have been won over after their treasured garments were spoiled in previous cleaning attempts. When handing back their refreshed garments their smiling faces make it all worthwhile.

We have also cleaned a magnificent yacht in three days from bow to stern after all her upholstery and carpeting had been soot damaged through a mechanical malfunction.

Both clients found at Jeeves the standards to meet their demands.

OUR LEATHER REFURBISHING & RECOLOURING SERVICE

Even the finest designer shoes, boots and handbags can get scuffed, or damaged in other ways. Mildew is a common problem, too, in tropical climates and that's why we have a team of experts to gently refurbish and recolour your favourite accessories. Refurbishing is a detailed, specialised process. Rather than go into technicalities, we will let the before and after photographs speak for themselves.

BEHIND THE GLAMOUR

The place where we weave our magic is on Jalan Cipinang Jaya 39, Cipinang, Jakarta Timur. Behind our reception area are two floors equipped with the very latest machinery: think Rolls Royce but for water purifying, laundry and dry-cleaning equipment.

We also offer a delivery and collection centre for clients living in Cipinang.

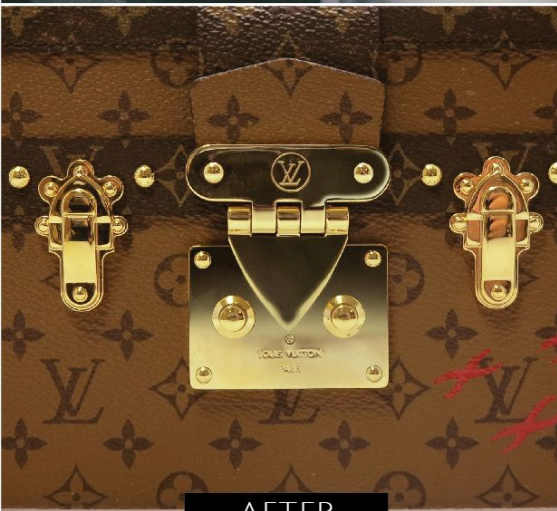

BEFORE

LIVING OUTSIDE JAKARTA?

We offer a long distance service for those wishing to use Jeeves. Send your garments with any special instructions by the courier of your choice. After cleaning items will be sent back using the expedition company's insurance scheme.

AFTER

NEED IT DOUBLE-QUICK?

With our Priority service your items can be finished, for a surcharge, faster than our standard service. To use this service please inform the Valet Shop or Pick-up and Delivery personnel.
